Released by Rio Grande Games in 2006.

This was the first Carcassonne expansion created by Rio Grande Games, and so the FAQ below is from correspondence with them rather than HiG. Thanks to [John Sweeney](#).

A pig-herd tile?

As far as the tile with pigs on it is concerned—do you have an official ruling? I understand from Hans im Glück that these are your tiles rather than theirs, so I guess you are the final arbiter!

Yes, I am—and this is just a field—no special points for the pigs and cows in it—sorry.
